

# *Lab Safety Rules*

**Always wear safety goggles  
to protect your eyes.**

**Wear a lab coat or apron  
to protect your clothes  
and gloves  
(when needed) to  
protect your hands.**

**Keep materials away from your mouth, nose, and eyes. Do not touch your face while doing the science experiment.**

**Tie back long hair, secure loose clothing  
and do not wear dangling jewelry.**

**NEVER taste anything during a science activity in the lab.**

Know where the lab safety equipment is located. (First-aid kit, eye wash, etc.)

**Do not play with the lab equipment.**

**Tell the teacher immediately if you get hurt, spill something or something gets broken.**

**Do not eat or drink anything  
while in the lab.**

**Clean your work area and wash your hands with soap and water after you have finished the experiment.**
